

APPIAN® BRICK SYSTEM

Circle

EACH PALLET CONTAINS ONE 11 FOOT DIAMETER CIRCLE OR TWO 8 FOOT CIRCLES.

Circle 0	1	Center Stone	6.3"
Circle 1	8	Small Circle Stones	19.3"
Circle 2	8	Small Circle Stones	31.8"
	8	Three Quarter Stones	
Circle 3	26	Large Circle Stones	44.6"
Circle 4	34	Large Circle Stones	57.4"
Circle 5	21	Large Circle Stones	70.1"
	21	Three Quarter Stones	
Circle 6	26	Large Circle Stones	82.9"
	24	Three Quarter Stones	
	2	Half Stones	
Circle 7	30	Large Circle Stones	95.6"
	30	Three Quarter Stones	

Circle 7 completes an 8' circle.

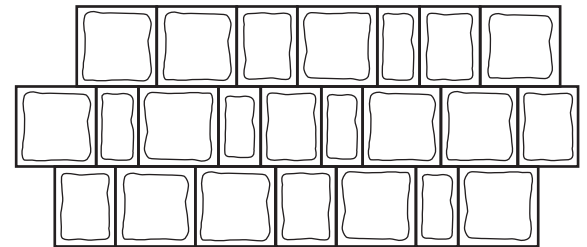

Circle 8	34	Large Circle Stones	108.4"
	33	Three Quarter Stones	
	1	Half Stone	
Circle 9	38	Large Circle Stones	120.7"
	38	Three Quarter Stones	
Circle 10	54	Large Circle Stones	133.5"
	28	Three Quarter Stones	

Circle 10 completes an 11' circle.

An 11' circle will require rotating of the Large Circle Stones as the 3/4 Stones are limited. It is normal to have some extra pieces left when forming the Appian® Circle. With either the 11' or 8' circle, extra brick may still be left over.

The Appian® Brick System is "Old World" paving at its best. Carefully blended colors and antiqued top edges give a cobbled charm to the project. The Appian® System is manufactured in a 2 3/8" thickness which is suitable for both pedestrian walkways and residential driveways.

The Appian® Circle has been designed to maintain close joints and has little waste. Each pallet contains one 11 foot diameter circle or two 8 foot circles.

The Appian® Mixed, shown above, or 6" x 6" bricks can be worked around the circles to complete the project.

Please Note: Sizes shown are nominal. Products are made to fit metric modules.
