

SERENGETI® STONE

Serengeti® Grande™

Random installations can create small holes. The 4 5/8" x 4 5/8" piece shown is not supplied. If a 4 5/8" x 4 5/8" piece is needed, it must be cut in the field. These bricks are to be laid randomly.

This illustration represents a Serengeti® Grande installation with 25% of the 14" x 14" pieces (packaged separately) and 75% of the 9" x 14, 9" x 9" and 4 5/8" x 9" pieces (packaged together). These percentages are based on the total square feet installed. Modify the installation to suit individual preferences. This design is not exactly repeated or laid in any set repetitive design.

Please Note: Due to irregular vertical edges, sizes may vary slightly from brick to brick. All installations are random. Installation designs may need to be altered to avoid running short of particular sizes. When installing, remember to adjust the design to accommodate all the sizes in the correct proportion to make use of all material.
