

# NATURAL SEALER

for Paver and Sand Joints

## Product Information

A protecting sealant that allows breathability of the concrete masonry or paver unit

### DESCRIPTION:

This sealer enhances the appearance of the architectural concrete masonry units. It is impervious to liquids, yet is vapor/air permeable. Intensifying Sealer provides excellent protection from water, alkalis, acids, air borne pollutants and ultraviolet light.

- enhances appearance and color
- reinforces joints by keeping sand in place
- protects against oil and dirt penetration on paver surface
- minimizes erosion and weed growth
- makes surface easy to clean
- environmentally compliant

### COVERAGE:

Rough Surface = 150 sq ft/gal @ 1.0 mil  
Smooth Surface = 200 sq ft/gal @ 1.0 mil  
Consumption will depend on surface porosity.

### NET CONTENTS:

1 US Gallon (3.7853 L) or 5 US Gallon (18.9 L)

Weight/Gallon: 8.52 lb/gal

### APPLICATION:

Natural Sealer is ready to use and requires no mixing or dilution. Surface must be clean, dry, free from oil, grease, dust, dirt, sand, efflorescence and frost. Natural Sealer is sprayable with an airless sprayer or can be applied with a brush or roller. Apply over clean, dry block. Interior or exterior applications. Sealer may increase slipperiness. For complete application instructions, refer to product label.

Before using this product, read the Material Safety Data Sheet for additional safety precautions.
